AND WONDERS
GENEVA

PRESS RELEASE
Geneva, June 3, 2021

Watches and Wonders Geneva looks forward to seeing you in spring 2022

Watches and Wonders is delighted to announce the dates of its next salon, which will be held physically in Geneva, from March 30 to April 5, 2022. Seven days to celebrate, discuss, discover and bring together the main players in world watchmaking at Palexpo.

In the wake of the 2021 edition that brought together 38 of the most prestigious watchmaking *Maisons* during a large-scale digital event, Watches and Wonders is already looking to the future. It is full steam ahead for spring 2022 with the organization of the next salon, which will take place in the halls of Palexpo from March 30 to April 5, 2022.

Following two online editions, a physical event is very much anticipated by professionals, amateurs and those with a passion for fine watchmaking. An opportunity for the industry to come together and speak as one, combining the experience of a physical presence with the resonance of the digital aspect. The list of participating *Maisons* and the exact format will be communicated at a later date.
